

Petition to Take a Nonstandard Ph.D. Written Exam Component
Department of Mathematical Sciences

If a Ph.D. candidate wishes to take a “nonstandard” written exam component not in the following list:

1. Real and Complex Analysis
2. Applied Mathematics
3. Functional Analysis
4. Topology
5. Partial Differential Equations
6. Numerical Analysis
7. Dynamical Systems
8. Probability

the component must be approved (by signatures below) by all their committee members and any two math faculty (primary and secondary writers) willing to write the exam component. Only one such nonstandard component may be *attempted* during the written comprehensive exam. The signed completed form is to be returned to the Math Office for filing. The primary faculty writer will inform the candidate as to the scope and content of the exam component.
