

M333 - Fall 2005
TR 8-9:15am Wil 1-117

TEXTBOOK: Elementary Linear Algebra, H. Anton, C. Rorres (9th edition)

INSTRUCTOR: Mark Pernarowski (Wilson 2-236)

OFFICE HOURS: TBA

PHONE: 994-5356

GRADE: The course percent will be determined as follows:

		Total points
Midterm 1	M	100
Final	F	100
Homework	HW	200

$$\text{course percent} = \frac{M+F+HW}{4}$$

Homework due dates and the date for the midterm will be announced in class. Exact content of the exams will also be announced in class. The final exam is NOT comprehensive. There is no set schedule for when homework will be assigned. Some assignments will be longer than others. As a result, the HW grade above will be based on the percentage obtained.

Homework/Notes

Homework assignments and additional notes relevant to the course (not in textbook) will be posted at the course web page:

www.math.montana.edu/~pernarow/M333/2005/index.html

Syllabus

An approximate schedule for the sections being covered is listed on the back. This is a rough guide only and will almost certainly change so it is important to attend class. Also, some material presented in class may not be in the textbook.
